The proposal for this Contract shall be based upon the required payment by the Bidder for wages for each craft or type of worker required to execute the Contract as determined by the Department of Labor and Industrial Relations of Missouri, pursuant to Sections 290.262, RSMo. 1994. A schedule of such prevailing hourly rate of wages as determined by the Department of Labor and Industrial Relations of Missouri, pursuant to said statutory provisions and made a part of this Contract. Annual Wage Order #33, Dallas County, Missouri.

Effective August 28, 2018, the provisions of sections 290.210 to 290.340 shall not apply to the construction of public works for which either the engineer's estimate or the bid accepted by the District for the total project is in the amount of \$75,000.00 or less. Bidders are advised of required compliance with RSMo. 290.290 which states that "each contractor and subcontractor engaged in any construction of public works shall have its name, acceptable abbreviation or recognizable logo and the name of the city and state of the mailing address of the principal office of the company, on each motor vehicle and motorized self-propelled piece of equipment which is used in connection with such public works project during the time the contractor or subcontractor is engaged on such project. The sign shall be legible from a distance of twenty feet but the size of the lettering need not be larger than two inches."

XX. Transient Employers

Every transient employer, as defined in Section 285.230 RSMo., shall post in a prominent and easily accessible place at the work site a clearly legible copy of the following: (1) the notice of registration for employer withholding issued to such transient employer by the director of revenue; (2) proof of coverage for workers' compensation insurance signed by the transient employer and verified by the department of revenue through the records of the division of workers' compensation; and (3) the notice of registration for unemployment insurance issued to such transient employer by the division of employment security. XXII. Form of Contract

The Bidder shall enter into a contract that includes all of the representations and information submitted with the bid. This IFB document shall become an integral part of the contract between the District and the Bidder.

The parties acknowledge that the actual costs and losses resulting from delayed completion, including extended project administration, supervision, financing, temporary facilities, and loss of use, would be difficult to determine precisely when the Contract is signed and that this amount represents a reasonable estimate of those anticipated damages, not a penalty. The District, at its option, may deduct liquidated damages from amounts otherwise payable to the Contractor, without limiting any other rights or remedies available under the Contract.
